

Approved Manufacturer of Steel Plates, Strip, Sections & Bars

Manufacturer	ABS SISAK d.o.o.
Address	BRAĆE KAVURIĆA 12, 44010 Sisak, Croatia
Type	Steel Making Semi-Finished Products

This approval is subject to compliance with the Rules for the Manufacture, Testing and Certification of Materials. The full details of the processes and grades to which this approval applies are given on subsequent pages of this certificate.

This certificate is issued to the named manufacturer, and is valid until the expiry date specified. Lloyd's Register is to be notified of any change that may affect the validity of this certificate, and reserves the right to cancel or withdraw this certificate.

71 Fenchurch Street, London, EC3M 4BS, United Kingdom

Gavin Young

Senior Metallurgist to Lloyd's Register EMEA
A member of the Lloyd's Register group

Lloyd's Register Group Limited, its affiliates and subsidiaries and their respective officers, employees or agents are, individually and collectively, referred to in this clause as 'Lloyd's Register'. Lloyd's Register assumes no responsibility and shall not be liable to any person for any loss, damage or expense caused by reliance on the information or advice in this document or howsoever provided, unless that person has signed a contract with the relevant Lloyd's Register entity for the provision of this information or advice and in that case any responsibility or liability is exclusively on the terms and conditions set out in that contract.

Approved Manufacturer of Steel Plates, Strip, Sections & Bars

Semi-Finished Products	Billets	Grades	Maximum Thickness	Units
-	-	Alloy	410.00	mm
-	-	Carbon	410.00	mm
-	-	Carbon-manganese	410.00	mm

Additional Remarks

Approval covers square section con cast billets to 170mm section size and round concast blooms and billets to 410mm diameter.

Steel types carbon and carbon-manganese covers the supply of billets for processing into forgings and normal strength, high strength and ferritic steels for low temperature service, according to the Society's Rules for the Manufacture, Testing and Certification of Materials. The final processing mill or forge is responsible for ordering steel which complies with their approved chemical composition and enables them to achieve the required mechanical properties
